 Works / Lives
Burlington, Canada

Born and raised in Thunder Bay, Canada, currently living and working in Burlington, Canada. I am an abstract artist and am inspired by the climate that surrounds me and my passions in life. I use thick and thin layers of acrylic as well as latex paint, applied using palette knives, rags, sponges and brushes, pulling back and removing portions of each layer until the result is something that's synchronized with my current feelings.

One of my biggest inspirations for pursuing a career in fine art is my father. At a young age I was always fascinated with his ability to work with any medium and his gift of being able to transform it into something beautiful. His encouragement to express myself artistically at a young age was key to my artistic development.

I'm a huge advocate of reusing materials, reducing waste and recycling. I also believe that process begins with individual efforts because we all have to do our part to leave this world in a liveable condition for future generations. On February 19, 2015, I formed a partnership with Loop Paint. Loop is the recycled paint brand of waste collector and recycler Photech Environmental Solutions, located in St. Catharines Ontario. In addition to using reclaimed/recycled paint, I build all of my frames from reclaimed pallet wood and furniture, with a continuous goal of being 100% waste free as an artist.

EDUCATION

Studied Under: Emil Slivchak, Painter/Sculptor
